

April 2012

Hi to all,

Just a quick note that when we get the next batch of guns back from Turnbull and send them out we will have delivered 20 guns. Things are going well no more surprises so far. The polishing just takes what it takes as far as time. We are averaging 16 to 18 hours per pistol to hand polish them. We have now sold about 70 guns. Thanks again for your patience.

Bill
